# OUR CAPABILITIES

## ENGINEERING / DESIGN

- 3D Design and Modelling
- 3D Laser Scanning
- Shop Detailing
- Mechanical Engineering
- Process Engineering
- HAZOP / CHAZOP / SID
- Structural Engineering
- RPEQ Certification
- Feasibility Studies
- Scope Development
- Reverse Engineering
- Engineering Management
- Project Management

## FABRICATION / WORKSHOP

- Structural Steel
- Access Systems
- CNC Brake Press, Guillotine
- Weld Positioners / Rollers
- Welding Machines, incl. Orbital
- Pressure Piping and Vessels
- Tanks, Chutes, Hoppers
- Hygienic Process Pipework
- Carbon Steel, Stainless
- Aluminium and Exotics
- NDT and Pressure Testing
- Full QA / QC / OH&S Process
- Factory Acceptance Test

## FABRICATION / INSTALLATION ON-SITE

- Water Infrastructure Installations
- Food & Beverage Installations
- On-site Fabrication & Installation
- Carbon Steel, Stainless
- Aluminium and Others
- Plant Shutdown Specialists
- Relocation & Decommissioning
- 3D Laser Scanning
- Fully Mobile Work Teams
- Full QA / QC / OH&S Process
- On-site Measure and Drafting
- On-site Commissioning
- Site Acceptance Test

## MAINTENANCE / SERVICES ON-SITE

- Emergency Services / Repairs
- Mechanical Breakdowns
- Mechanical Fitters
- Fabrication
- Planned Maintenance (PM's)
- RPZ Testing
- Fluid Clean Ups
- Pressure Cleaning
- Repairs to Valves and Pipes
- Line Marking
- Painting (Small Jobs)
- Full QA / QC / OH&S Process
- Project Management

## ABOUT US

BDR Stainless conducts multi-faceted engineering activities for our Customers. We provide Design, Fabrication, Installation and Maintenance Services. Our well equipped workshop supports our activities across multiple industries and our Project Managers ensure we deliver on our promise. BDR Stainless was established in 2000 with a focus on Customer Service, Quality and Innovation for the Engineering, Maintenance and Services industry.

We provide experienced personnel who regularly undergo Safety and Equipment Training and hold relevant qualifications and licenses. With a strong focus on training, safety and professionalism, the BDR Team is equipped with the experience, expertise and knowledge you need to achieve results on your next project.

BDR understands the importance of having the right equipment to produce quality results on every job and that is why we only use the best equipment and brands. All equipment provided has been regularly serviced and maintained including Electrical Test and Tagging to Australian Standards to provide you the most reliable service.

BDR Stainless has an Integrated Management System which is 3rd party Certified. Certification includes ISO 9001, AS/NZ4801, AS/NZ 14001.

Welder / Oxy Cutter with Tools .....	4
General Labour with Tools .....	6
Skilled Labour with Tools .....	8
Certified Labour with Industry Tickets .....	10
Generators and Access .....	12
Other Equipment we Stock .....	14

A welder wearing a red protective suit with reflective silver stripes and a black welding helmet with a blue visor is working on a large, horizontal metal pipe. The welder's suit has a circular logo on the chest that reads "BDR STAINLESS". The pipe is being cut or welded, with a bright blue flame or light visible at the point of contact. The background is dark, and there are some industrial components visible, like a fan.

# WELDER / OXY CUTTER *with tools*

BDR Stainless Welders / Oxy Cutters Tradesman have years of experience working in the construction industry. They are experts in Fabrications, Metal Repairs, MIG, MMA and TIG Welding and all types of structural oxy cutting tasks.

### MIG / MAG WELDING MACHINE

BDR Tradesman required with equipment.

5

A full-page background image showing a male worker in profile, facing right. He is wearing a blue hard hat with a clear face shield, an orange high-visibility work jacket with reflective white stripes and a 'BDR' logo on the chest, and grey work gloves. He is holding a long, thin metal rod or tool, which is inserted into a large, horizontal, cylindrical industrial component. The component has several bolted flanges. The background is a blue, horizontally-slatted wall. Overlaid on the image are several large, semi-transparent, overlapping circles in shades of blue and white. The text 'GENERAL LABOUR' is in a bold, white, sans-serif font, and 'with tools' is in a white, cursive script font, both positioned in the lower-left corner.

# GENERAL LABOUR *with tools*

Unlike other labour hire companies, with **BDR Stainless** you can book **LABOUR WITH TOOLS**, organise both labour and equipment from one supplier with one phone call.

### 5" CORDLESS GRINDER

BDR Tradesman or General Labour  
required with equipment  
Delivery and consumable charges may apply

## INDUSTRY TICKETS

**BDR**  
**STAINLESS**  
(Aust) PTY LTD

### EWP OPERATORS (up to 11m)

Our Elevated Work Platform (EWP) Operators are highly experienced using Elevated Working Platforms on all types of projects. We ensure our EWP Operators submit pre and post operational checks to ensure safe operation of the EWP.

### EWP OPERATORS (over 11m)

We have multiple Elevated Work Platform (EWP) Operators that are certified with large boom and knuckle booms of all heights above 11m. We ensure our EWP Operators submit pre and post operational checks to ensure safe operation of the EWP.

### STRUCTURAL WELDERS

All of our Structural Welders are fully certified and have extensive experience with Mild Steel, Stainless Steel, Aluminium and other exotic metals.

### PRESSURE/CODED WELDERS

Our professional Coded Welders are certified against BDR welding procedures to AS 4037 AS 4041 and ASME IX.

### WORKING AT HEIGHTS

A large number of our team members are fully certified for working at heights and can carry out anything from demolition and construction while working at heights.

### CONFINED SPACE HOLDER

If you are looking for Labour with a confined space certificate then look no further than BDR Stainless, we have a number of skilled team members that are Confined Space Entry certified.

### HIAB TRUCK AND DRIVER

Commonly used in the construction industry for the movement of materials, we can provide a HIAB truck with driver / operator.

### RADHAZ RF EME AWARENESS

Our Skilled Employees are trained to access areas near transmitting antennas to satisfy the RF Worker Requirements of ARPANSA RPS3.

### FIRST AID TICKER HOLDER

A number of our team members carry the First Aid certification and are fully qualified to administer first aid treatment and perform resuscitation at your workplace in the event of an emergency situation.

### HEPATITIS A, B & TETANUS VACCINATIONS

BDR have both Tradesman and Skilled Labour employees who have current Hepatitis and Tetanus vaccinations to enable them to work at Water/Sewage Treatment Plants.

The background image shows three workers in orange high-visibility safety gear and blue hard hats. One worker on the left is using a green bench-mounted cutting wheel on a metal piece. Another worker in the background is grinding a metal piece, creating a large spray of orange sparks. A third worker in the foreground is welding, with a bright blue and white light emanating from the point of contact. A large red industrial generator sits in the center of the workshop. The floor is concrete, and there are various cables and equipment scattered around. Large windows in the background look out onto a grassy field.

# GENERATORS *and access*

We have a wide range of alternate power solutions here at BDR Stainless. We stock everything from small 5KVA Generators right up to large 3 PHASE Generators. We also stock various ACCESS EQUIPMENT to help you reach new heights.

## 5KVA GENERATOR

BDR Tradesman or General Labour  
required with equipment  
Delivery and consumable charges may apply

## 8KVA GENERATOR

BDR Tradesman or General Labour  
required with equipment  
Delivery and consumable charges may apply

## PORTABLE SCAFFOLD

BDR Tradesman or General Labour  
required with equipment  
Delivery and consumable charges may apply

## 4M PORTABLE SCAFFOLD

BDR Tradesman or General Labour  
required with equipment  
Delivery and consumable charges may apply

## DIESEL WELDING MACHINE

390Amps of portable welding power, dual operator stick or wire  
feeder capability on both A and B welding side. Pre-Dial Voltage  
or amperage, dual remote controls and 14kVA of auxiliary power.  
All this is packaged into a lightweight super silenced enclosure  
made to meet Australian mine site standards.

## PLATFORM LADDERS

BDR Tradesman or General Labour  
required with equipment  
Delivery and consumable charges  
may apply

# GENERATORS AND ACCESS

Equipment models may differ from those shown in photographs. All equipment is only available when supplied with a BDR Tradesman or Skilled Labour.  
Other equipment available on request and may attract additional charges, delivery and consumable charges may also apply.

**BDR**  
STAINLESS  
(Aust) PTY LTD

13

# OTHER EQUIPMENT *we stock*

## WATER PRESSURE WASHER 1800PSI

BDR Tradesman or General Labour required with equipment  
Delivery and consumable charges may apply

## BAND SAW

Portable Swivel Head-Dual Mitre Metal Cutting Band Saw.  
245 x 180mm (W x H)  
Rectangle Capacity  
Electronic Variable Blade Speed 20-90mpm.

## WELDING BENCHES

Fully equipped and portable Welders Benches fitted out to be Job Specific and to ensure tool security and safety on-site.

## ORBITAL WELDING MACHINE

The portable Orbital Welding Machine offers compact welding power supply with integrated computer control, works directly with the wide range of Orbital Welding Heads for sizes 1" and is ideal for portable tube welding on-location at building sites.

## DIESEL WELDING MACHINE

390Amps of portable welding power, dual operator stick or wire feeder capability on both A and B welding side. Pre-Dial Voltage or amperage, dual remote controls and 14kVA of auxiliary power. All this is packaged into a lightweight super silenced enclosure made to meet Australian mine site standards.

## PERSONAL SAFETY EQUIPMENT

BDR Tradesman or General Labour required with equipment  
Delivery and consumable charges may apply

## ACROW PROPS

BDR Tradesman or General Labour required with equipment.  
Under an engineer's supervision.  
Delivery and consumable charges may apply

## INDUSTRIAL VACUUM

BDR Tradesman or General Labour required with equipment  
Delivery and consumable charges may apply

## ORBITAL SAWS

Cutting and bevelling high-alloy steel (stainless steel), low- and unalloyed steel, plastics, casting materials and non-ferrous metals in just seconds, using the "Planetary Cutting" method from 1" to 12" materials.

## PLATFORM LADDERS

BDR Tradesman or General Labour required with equipment  
Delivery and consumable charges may apply

## OTHER EQUIPMENT FOR HIRE

Equipment models may differ from those shown in photographs. All equipment is only available when supplied with a BDR Tradesman or Skilled Labour.  
Other equipment available on request and may attract additional charges, delivery and consumable charges may also apply.
